DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-16 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims are drawn to claiming the living body in different parts of the claim with the electrode being attached to portion on the head. This therefore claims the head as well. Claims also refer to the brain wave electrode being mounted on the subject. Claims need to amended to such that the electrode is "adapted to be attached" or "adapted to be mounted" to the head.
